

SoftCom Business Services

Hosted Business Class Messaging and Collaboration Solutions

SoftCom Business Services (SBS) has one goal in mind - to provide small and medium-sized companies with superior messaging and collaboration solutions.

We understand that messaging is the backbone of communications for today's businesses. Ensuring your company has 100% email availability using a highly secure, proven and affordable business class solution is essential and this is our focus at SoftCom. And we deliver even more.

With our hosted solutions you can:

- Work How and Where You Want To
- Achieve More Than You Could Managing In-House
- Significantly Lower Costs
- Access Premium Support

Our industry leading technologies and cutting edge, multi-million dollar infrastructure means we can offer highly versatile and feature rich solutions which are easily tailored to your communication needs today and in the future. The result is increased productivity for employees and the ability to focus time on activities that are core to your business success. These on demand capabilities, combined with our Premium Support services, highlight our commitment to offering best-in-class solutions for businesses.

Mobile Device Integration Capabilities

- BlackBerry®
- iPhone®
- Android™
- Windows Phone®
- Palm

Work How and Where You Want To

SoftCom Business Services feature-rich solutions enhance productivity and are easily tailored to support the unique business needs of each employee. Personalize your solutions using an intuitive administrative portal or by calling our Premium Support team. Access email, calendars, tasks and more from anywhere, at anytime and using any device. Experience business ready features such as archiving, compliance monitoring, content filtering and integration, and enable the most efficient work environment. Our job is to provide exactly the capabilities you want, when you want them.

Achieve More Than You Could Managing In-House

Choosing an off-premise solution means you gain access to a cutting edge infrastructure and industry leading technology, which is continuously monitored and updated by experienced IT professionals. From having a highly reliable and secure solution to gaining access to a large variety of best-in-class features that support your business needs, an off premise solution provides the flexibility businesses prefer.

Significantly Lower Costs

With hosted messaging and collaboration solutions, you have a predictable expense and eliminate the large capital investments associated with purchasing hardware, software, licenses, upgrades and more. Moving off-premise also frees up internal resources to focus on strategic business initiatives rather than spending their time managing email. In addition, our flexible billing structure means you can design a payment plan that works best for your business.

Access Premium Support

Premium Support customers are assigned an Account Manager who is a messaging and collaboration expert. Acting as an extension of your team, the Account Manager will get to know your business personally and help you tailor our solutions to your unique requirements. Committed to ensuring your company experiences the maximum level of productivity, savings and support, your Account Manager will continue to align innovations with changing business needs, address questions and handle any issues, should they arise. Backed by a team of experienced support professionals, available 24/7/365 via phone, email or live chat, you are guaranteed the support you need, when you need it.

Experience That Counts

- Founded in 1997
- Supporting 25,000 businesses
- Customers across 140 countries
- Hosting over 2.1M paid mailboxes
